ANNUAL REPORT

Year 2016 - 2017

**Vision :**

Health for All.

Awareness & Precautions Measures related to Health

Child Health & Nutritions, Women Healthcare & Empowerment.

Mission :

Our mission is to provide a preferential option for the poor in health care in the Slums & Rural Area. By establishing long-term relationships based in settings of poverty, Health strives to achieve two overarching goals: to bring the benefits of modern medical science to those most in need of them and to serve as an antidote to despair.

At its root, our mission is both medical and moral. It is based on solidarity & charity.

When our patients are ill and have no access to care, our team of health specialist, scholars, and activists will do whatever it takes to make them well - just as we would do if a member of our own families or we ourselves were ill.
